Holiday Traditions

“The children were all nestled snug in their beds while visions of sugarplums danced in their heads.”

Holidays bring candy, cookies and other sweets. What is a parent to do? You want your children to eat healthy and you want them to enjoy your family’s holiday traditions.

Help your family eat healthy during the holidays:

- **Don’t skip meals.**
  You and your child may eat large amounts of sweets if meals are missed.

- **Try to open presents before eating.**
  Small children often find it hard to eat when waiting for presents.

- **Don’t expect perfect behavior when eating holiday meals.**
  There is too much excitement! Relax and have fun.

- **Limit the variety of sweets.**
  If there is large variety of sweets, you and your child will be tempted to eat more. You will want to try them all!

- **Bake sweets with added nutrition.**
  Use peanut butter, oatmeal, cereals and raisins when baking.

  - **Enjoy sweets in moderation.**
    Your child learns by watching how you and other adults eat and enjoy sweets. Eat a small amount of sweets.

  - **Don’t reward your child for eating his meal with sweets or candy.”**

Take time to enjoy family meals during the holiday season.
