Computer Science Discipline Meeting Minutes - 12/1/09

Present: Elena Machkasova (coordinator), Nic McPhee, Kristin Lamberty, Sara Lahr, Justin Mullin

- Proposed class schedule for the 10-11 school year (attached) was discussed and approved, with the provision that the CSCW/3601 lab time slots could be swapped with the functional/distributed time slots if necessary.

- It was decided and approved that the network connections in Elena's and KK's research rooms should remain connected, but any other rooms would not need network connections. Elena volunteered to handle this change.

- The proposal form for Elena's Programming for Parallel Architecture class was discussed, and after a few corrections and modifications, was approved.

Submitted: Justin Mullin - 12/7/09
