UMM Computer Science Discipline
Proudly Presents the Twenty-fourth
Seminar II
Conference

Thursday and Friday, April 29 & 30, 2010
Science 2200 5-7pm

Thursday, April 29

5:00
How Does Test-Driven Development Compare?
Matthew Phillips

5:30
Cellular Network Security
Billy Visto

6:00
Chaitin’s Constant: Properties and Implications
Chad Seibert

6:30
Exploiting the Audio-Visual Perceptual Phenomenon in Real-Time 3D Applications
Alex Andersen

Friday, April 30

Security and Applications of ElGamal’s Encryption Algorithm
Melissa Helgeson

Genetic Algorithm-based Intrusion Detection Systems
Benjamin Cole

Semantic Role Labeling
Skatje Myers

Tangible Tabletop Interfaces in the Musical Realm
Nolan Nordlund
